AREC 7 Series

Heating Magnetic Stirrers

Ceramic top hot plate stirrers ensuring reliability and excellent stirring and heating performance

AREC 7 Connect

Innovative, safe and accurate Ceramic Hot Plate Stirrer with embedded Wi-Fi technology to monitor and control laboratory reactions through VELP Ermes cloud platform. Precise thermoregulation and powerful stirring for chemical, pharmaceutical and cosmetic laboratories requiring accuracy and efficiency.

OUTSTANDING PERFORMANCE

- Cutting-edge heating plate technology that ensures temperature homogeneity and stability from room temperature up to 550 °C.
- Powerful brushless motor stirring up to 20 L volume (H₂O) from 30 up to 1700 rpm; ideal for both low and high speed applications.
- SpeedServo[™] counter reaction technology maintains the speed constant as viscosity changes.

EXCELLENT THERMOREGULATION

- Ideal for temperature sensitive applications in Chemistry, Biotech and Pharma.
- Precise thermoregulation of the medium with Pt100 probe (± 0.5 °C).
- Thermoregulation range from room temperature up to 300 °C.

SAFE AND RESISTANT

- The high-quality ceramic top and technopolymer structure ensure premium resistance to chemicals.
- Hot Surface Safety message displayed when the temperature is above 50 °C.
- The safety lock button eliminates the risk of unintentional modification of the working conditions.

PROGRAMMABLE OPERATION

- Integral Timer from 1 min to 99 h 59 min (1 min steps).
- Autoreverse of the stirring direction for enhanced mixing capabilities from 5 s to 99 min 59 s (1 s steps).
- Intermittent mode for enhanced programming from 5 s to 99 min 59 s (1 s steps).

INTUITIVE AND EASY-TO-USE

- Digital display for precise temperature and stirring setting.
- Illuminated icons to ensure a clear readout of the working conditions.

ermes enabled

- Remote control and programming
- Data logging and reporting (.xls, .csv, .pdf, LIMS)
- Real-time access from PC, smartphone and tablet
- Enhanced service support
- Software update

AREC.X 7

The AREC.X 7 is designed for accurate thermoregulation offering state-of-the-art stirring and heating performance, superior safety features and ease-of-use. The ideal solution for laboratories requiring precise control of the medium's temperature.

EXCELLENT PERFORMANCE

- Cutting-edge heating plate technology that ensures temperature homogeneity and stability from room temperature up to 550 °C.
- Bright and easy-to-read digital display showing actual and setpoint temperature.
- Powerful motor stirring up to 15 L volume (H₂O) from 50 up to 1500 rpm.

PRECISE THERMOREGULATION

- Ideal for temperature sensitive applications in Chemistry, Biotech and Pharma.
- \blacksquare Precise thermoregulation of the medium with Pt100 probe (± 1 °C) and VTF Digital Thermoregulator (± 0.5 °C).
- Thermoregulation range from room temperature to 250 °C.

SAFE AND RESISTANT

- The high-quality ceramic top and technopolymer structure ensure premium resistance to chemicals.
- Hot Surface Safety message displayed when the temperature is above 50 °C.
- Run-off grove to protect the electronics.

AREC 7

The AREC 7 is the safe and reliable hot plate stirrer with ceramic top guaranteeing excellent heat transfer and stirring performance for basic laboratory applications.

EXCELLENT PERFORMANCE

- Cutting-edge heating plate technology that ensures temperature homogeneity and stability from room temperature up to 550 °C.
- Bright and easy-to-read digital display showing actual and setpoint temperature.
- Powerful motor stirring up to 15 L volume (H₂O) from 50 up to 1500 rpm.

SAFE AND RESISTANT

- The high-quality ceramic top and technopolymer structure ensure premium resistance to chemicals.
- Hot Surface Safety message displayed when the temperature is above 50 °C.
- Run-off grove to protect the electronics.

AREC 7

CONFIGURATION

HSC 7

The HSC 7 is the safe and powerful analog hot plate stirrer for applications that do not require accurate temperature control of the medium. The ideal solution for academia, chemistry, biology and pharma laboratories in schools and universities.

ENTRY LEVEL SOLUTION

- Cutting-edge heating plate technology that ensures temperature homogeneity from room temperature up to 400 °C.
- Powerful motor stirring up to 15 L volume (H₂O) from 50 up to 1300 rpm.
- Stirring and heating indicators.

SAFE AND RESISTANT

 The high-quality ceramic top and technopolymer structure ensure premium resistance to chemicals.

CONFIGURATION

Run-off grove to protect the electronics.

SERVICE & SUPPORT

VELP Scientifica products are designed by our engineers to resist years of laboratory use.

Our products are manufactured with premium materials to guarantee the best performance with maximum safety.

According to our experience, a proper and regular maintenance is necessary to ensure the highest performance of analytical instrument. VELP Service Department and VELP Official Partners are always ready to offer you maintenance and service support tailored to your needs.
